Dear Student:

Welcome to “Responsible Riders” the Idaho off-highway vehicle education program. The Idaho Department of Parks and Recreation congratulates you for taking the first step towards becoming a safer and more responsible OHV rider. By studying and using the information you will learn in the Student Reference Guide (which will be sent to you after we receive your application) and in your skills module classes, you can help make the sport of OHV riding safer and more fun for everyone!

When you receive your Student Reference Guide, please carefully read and study the guide. Have your parents help you understand this material. Take the quizzes at the end of each chapter. These questions are similar to the questions on the written test you will take the day of your riding class. There is a separate Student Reference Guide for ATVs, Off-Highway Motorcycles and Snowmobiles.

On the day of your riding skills class, you will take a 50 question true/false and multiple choice written test on the material in the student manual. You must answer at least 35 questions correctly in order to pass and enter the riding skills class. If you don't pass, you will need to study the workbook again and reschedule your riding skills class for another day.

Are you ready? Here are some things you need to do now to obtain your OHV Safety Certificate:

1. Complete the enclosed application and return it to our office as soon as possible. Up to four students from a family can register together on one application.
2. When you have finished studying your manual and feel like you are ready to take your test and skills class, call our office to schedule a date for your class!
3. Have your parent or guardian bring you to the range. Your parent/guardian should plan to stay with you during the class. Each student must have their own OHV, Off-highway Vehicle, to use during the class. Because we will be riding together as a group, sharing of OHV's will not work. Each OHV must be properly registered, and each rider must have the right safety gear as outlined in the Student Reference Guide. That means you will need your own DOT approved helmet, goggles or face shield, gloves, long sleeved shirt, long pants and over-the-ankle boots. Your class will last about 4 hours, so you might want to bring drinks and snacks too.
4. After you have passed the written test and the riding skills module, you will receive your certificate!

If you or your parents have questions about the program, you may call me at (208) 334-4180 ext 286.

Thanks again for your interest in OHV riding in Idaho! We look forward to having you in our classes.

Sincerely,

Rich Gummersall
Idaho OHV Education Coordinator
